

Steve Hegyes Week 9 Research

What are ten different data types MySQL provides?

Numeric

Date and time

String

Spatial

TEXT

BLOB

CHAR and VARCHAR

BINARY and VARBINARY

ENUM

SET

What is your favorite thing you learned this week?

This week has been one of the toughest weeks for me. Once I finally got it down, I enjoyed the final product of the Menu App. Using the function of it and seeing the results of the code.
